About STEMCELL-2025

We are pleased to announce that the **International Conference on Regenerative Medicine and Stem Cell Therapy** will be held on **March 24-26, 2025, Rome, Italy**.

This would be one of the leading conferences in the fields of Stem Cells and Regenerative Medicine. The conference aims to gather scholars from all over the world to present the latest research outcomes and advances in relevant fields and provides an ideal environment for making new scientific collaborations.

The conference will be organized based on the theme of stem cell innovations in regenerative medications. The main goal of the conference is to showcase the advances and challenges in Regenerative Medicine and Stem Cell Therapy, in areas such as Cell Adhesion and Migration, Applications of Stem Cells, Computational stem cell biology, Technologies in stem cell research, Stem cells in regenerative therapies and more. The conference will feature plenary and keynote lectures by eminent experts, oral and poster presentations by participants, workshops and exhibitions by sponsors and exhibitors.

We look forward to welcoming you to ROME for an unforgettable experience at the International Conference on Regenerative Medicine and Stem Cell Therapy!

Sincerely,

R Gayathri | Conference Secretary

STEMCELL-2025

SCIENTIFIC BOARD MEMBERS

Y. James Kang

Chief Scientist- Tasly Stem Cell
Biology Laboratory, China

Bernard Binetruy

Research Director - The National
Institute of Health and
Medical Research, France

Ahmed El-Hashash

Texas A&M University
USA

Uqbah bin Muhammad Iqbal

National University of Malaysia
Malaysia

Khue Vu Nguyen

University of California
USA

W. Sai Ho Chan

The European Association for
Predictive, Preventive, and
Personalized Medicine Taiwan, China

Luisa Maria Arvide Cambra

University of Almeria
Spain

Mihail Lucian Birsa

Alexandru Ioan Cuza University
Romania

Sinisa Franjic

Independent Researcher
Europe

Laura Gabriela Sarbu

Alexandru Ioan Cuza University of Iasi
Romania

KEYNOTE SPEAKERS

Dr. Y. James Kang
Chief Scientist- Tasly Stem Cell Biology
Laboratory , China

Dr. Pradeep V Mahajan
Chairman and Managing
Director- StemRx Bioscience Solutions
Pvt. Ltd., India

Dr. Ahmed El-Hashash
Texas A&M University
USA

Dr. Darwin Eton
Chief Medical and Science Officer at
Vasogenesis Inc, USA

Scientific Sessions

- Stem Cells in Regenerative Therapies
- Cell Aging and Senescence
- Stem Cells for Neurological Disorders
- New Market Trends, R&D on Stem Cells
- Tissue Engineering and Biomaterials
- Induced Pluripotent Stem Cells
- Stem Cell Based Disease Modelling and Drug Discovery
- Stem Cell Transplantation to Avoid Cancer
- Cell structure and Cellular Metabolism
- Applications of Stem Cells
- Stem Cells for Reproductive Medicine
- Stem Cell Embryology
- Genetics, Genetic Disorders, and Therapy
- Ethical Issues in Stem Cell Research
- Stem Cells: Molecular Mechanism, Apoptosis, and Signal Transduction
- Stem Cell Technology: Genomics, Proteomics, and Metabolomics
- Cell Adhesion and Migration
- Cardiovascular Therapy with Stem Cells
- Cell Cycle and Growth
- Hematopoietic Stem Cells and Mesenchymal Stem Cells

Venue

Rome, Italy

Rome, also known as the Eternal City, is a captivating tourist destination with a rich history, stunning architecture, and vibrant cultural heritage.

Some of the most famous attractions in Rome are:

- Rome has been one of the world's most visited cities for over two millennia. In ancient times, it was the center of Western Civilization, ruling vast territories across the Mediterranean, Northern Africa, England, and parts of the Middle East. Later, it became a major center for Christianity, with the Pope residing in Rome.
- During the Renaissance, Rome flourished as a European capital of arts, education, philosophy, and trade. Wealthy English aristocrats embarked on the Grand Tour to explore ancient Roman culture, art, and architecture.
- Rome is the 2nd most visited city in the EU, following Paris. It receives an average of 7–10 million tourists annually, which sometimes doubles during holy years. The Colosseum and the Vatican Museums rank among the most visited places globally.
- Rome boasts an abundance of archaeological sites, museums (such as the Vatican Museums and Capitoline Museums), aqueducts, fountains, churches, and historical buildings. The iconic Colosseum and the majestic dome of St. Peter's Basilica dominate the skyline.
- Rome's renowned cuisine, lively atmosphere, and picturesque streets enchant visitors. Exploring the city's monuments, piazzas, and hidden corners is a delightful experience.

Conference Opportunities

For Researchers and Faculty Members:

Speaker Presentations (Oral)

Poster Display

Symposium hosting (4-5-member team)

Workshop organizing

For Universities, Associations & Societies:

Association Partnering

Collaboration proposals

Academic Partnering

Group Participation

For Students and Research Scholars:

Poster Presentation

Young Researcher Forum

Student Attendee

Group Registrations

For Business Delegates:

Speaker Presentations

Symposium Hosting

Book Launch Event

Networking Opportunities

Audience Participation

For Product Manufacturers:

Exhibitor and Vendor booths

Sponsorship Opportunities

Product Launch

Workshop Organizing

Scientific Partnering

Marketing and Networking

with Clients
